Bullet is below. So I have to go back months then? Thanks

NIAGARA FALLS BOULEVARD SITE, NIAGARA FALLS, NY (DALY, PELLEGRINO)

Transport & Disposal activities have continued at the site. Since 01/18/2017, approximately 1125 tons of the high/low blend radioactive material has been shipped to US Ecology in Michigan. This brings the total material shipped out as of 01/25/2017 to 3662.22 tons.

The City of Niagara Falls approved the blue print plans for the GNBC Office Area construction. The GES bid for construction contractor was sent out on 01/11/2017. The Pre-Bid Site Visit was conducted on 01/17/2017. The proposal responses are due 01/26/2017.

The trees that were removed from Area 5 during the excavation were labeled and staged. Those trees will now be gamma scanned and sampled prior to being removed off-site.

Thanks. I apologize for not getting that in. So which pay period should I put it in for? This pay period, previous? Also, I have a bullet but I was delayed due to conversations with public affairs and management regarding how I should approach relaying site activities, our funding and new presidency. Can I get an extra 15 minutes?

Eric,

Attached is a copy of the Travel comptime form that needs to be filled out every time you earn hrs, even though you request it your email.

Thanks,

Ter
